

99Sounds is proud to release **Garage Foley**, a collection of royalty-free percussion hits and foley sound effects crafted by sound designer Tyler Bajsa. The sound library was created from field recordings that were captured in a garage, with minimal additional processing applied.

If you're a fan of **The Warehouse** collection which was expertly crafted by Richard Gould, this new release will be right up your alley. **Garage Foley** is less focused on delivering horror-inspired sounds and spooky sound effects, but it shares a similar grungy aesthetic and raw feel.

Contents

100 foley samples

32-bit WAV format

56.5 MB download size

40.2 MB size on disk

LICENSE

The included samples were crafted by Tyler Bajsa and are royalty-free for use in your music, audio edits, podcasts, video game development, movies, trailers, online videos, and any similar creative projects, both free and commercial. You are not allowed to redistribute these samples (as in share or sell them on other websites), or use them as the sound source in audio-related software (music making apps, noise apps, virtual instruments) and sound libraries which you are distributing, free or commercial.
